

NEW STATE OF ART CARDIOLOGY DEPARTMENT AND 35 BEDDED ICU COMMENCED AT PARUL SEVASHRAM HOSPITAL, WAGHODIA, GUJARAT

A new, modern state of art cardiology department was inaugurated yesterday at Parul Sevashram Hospital, a 650 bedded Multispecialty and Super specialty hospital affiliated to Parul Institute of Medical Sciences & Research. The inauguration was done by Dr Jigishaben Sheth, Mayor, Vadodara and Ms Seemaben Mohile, MLA Akota, Vadodara.

The Cardiology department has all the facilities of non-interventional cardiology, interventional cardiology in a state of art Cath Lab and Cardiac Surgical procedures in a well equipped Cardiac OT. The department will be jointly managed by Parul Sevashram Hospital and team of doctors from Rhythm Heart Institute. All the government schemes including Mukhyamantri Amrutam Yojana, Ayushman Bharat yojana will be operational here for all the procedures. The Cath Lab is equipped for Interventional Cardiac, Neurology as well as Vascular procedures. To mark the beginning of this department, a mega Cardiology camp has been organized for more than a month starting from 21st May to 30th June, during which all diagnostic and therapeutic interventions will be available on subsidized rates.

On the same day, a big, highly equipped and meticulously infrastructured 35 bedded ICU was also inaugurated. This will be one of the largest and most equipped ICUs in Vadodara city. The ICU has separate provision of Medical ICU, Surgical ICU, Paediatric ICU, ICCU, Respiratory ICU and Isolation ICU. This will serve as a blessing for the critical patients in Vadodara city.

At Parul Institute of Medical Sciences & Research and Parul Sevashram Hospital, we work with a long term vision of providing all kinds of medical services under one roof and strongly desire that no one shall be required to move out of the city due to unavailability of any of the medical services at affordable prices, said Dr Geetika Madan Patel, Medical Director, Parul University.
