ABOUT PARUL UNIVERSITY

Parul Arogya Seva Mandal has carved a niche for itself in the field of healthcare. As early as in 1993, the Parul Arogya Seva Mandal started the first self financed Homoeopathic Medical College in Gujarat at Ahmedabad. Later, the Parul Arogya Seva Mandal entered into the field of higher education in a big way by starting higher education in Engineering followed by several Faculties such as, IT & Computer

Sciences, Pharmacy, Ayurved, Homoeopathy, Architecture, Management studies, Applied Sciences etc. As a result of this effort to boost higher education opportunities for young people, especially from rural Gujarat the State Government conferred the status of Private University to the group and from 2015; the "Parul University" came into existence.

Parul University has ambitious plan of foraying into new branches such as Medicine, Law, Commerce, Design and Agricultural Technology, hence providing the prospective student a wide range of alternatives to choose from.

FACULTY OF VOCATIONAL EDUCATION

ABOUT THE PROGRAM

Under the National Skills Development Corporation, many Sector Skill Councils representing respective Industries have/are being established. One of the mandates of Sector Skill Councils is to develop National Occupational Standards (NOSs) for various job roles in their respective Industries. It is important to embed the competencies required for specific job roles in the higher education system for creating employable graduates.

The University Grants Commission (UGC) has launched a scheme on skills development based higher education as part of college/university education, leading to Bachelor of Vocation (B.Voc.) Degree with multiple exits such as Diploma/Advanced Diploma under the NSQF. The B.Voc. programme is focused on universities and colleges providing undergraduate studies which would also incorporate specific job roles and their NOSs along with broad based general education. This would enable the graduates completing B.Voc. to make a meaningful participation in accelerating India's economy by gaining appropriate employment, becoming entrepreneurs and creating appropriate knowledge.

FACILITIES AND OPPORTUNITIES AT PU

Parul Sevashram Hospital is a 450 bedded multi specialty hospital with a Special Neuroscience Department offering advanced diagnostic and treatment facilities to the patients of stroke, paralysis and all other neurological diseases.

The hospital is equipped with all Clinical Departments, Advanced Radiology and Pathology Departments, 20 bedded Intensive Care Unit (ICU), Operation Theaters, Dialysis Units and Physiotherapy Unit. A healing touch is offered through special Panch Karma Unit. The hospital offers free services to BPL card holding families under various schemes of Government like RSBY, Chiranjeevi, Balsakha etc.

The University also has state of art 280 bedded Parul Ayurved Hospital & 50 bedded Homoeopathy Hospital at Vadodara campus & 25 bedded Homoeopathy Hospitals each at Ahmedabad & Rajkot campus.

WHY STUDY AT PU ?

- Effective learning begins with great teachers. At PU we are fervent about grooming leaders who are not only thorough in the subject knowledge but into practical aspects too.
- At PU we set benchmark against the best institutions around the world. Our faculty, staff members and senior team constantly interact with leaders of subjects across the globe to learn and imbibe the best practices so that we can give a solid foundation for teaching and learning processes. Parul University has nearly 2,500 academic staff including researchers, scholars and creative artists at the forefront of their areas of expertise.
- The approach to teaching at the University differs depending on the programme and courses you choose, but common teaching methods include lectures, studio sessions, tutorials, group workshops, practical work and video lectures. Our classrooms are designed to provide the most encouraging atmosphere for dynamic and focused discussions.
- The teaching learning process comprises projects and case studies based on emerging areas in R&D, problem-based learning or designing and conduct of experiments. The hi-tech state of the art labs act as ideal training grounds for aspiring students to think into logical way of theoretical principles and bring to practice of the same on the bench.
